

The fight to protect compounded hormones is in a critical phase.

IN 2021, THE ALLIANCE FOR PHARMACY COMPOUNDING LAUNCHED A CAMPAIGN TO PRESERVE PATIENT ACCESS TO COMPOUNDED HORMONES.

Together, we achieved much, but there remains so much to do.

Our fight is not a bureaucratic struggle. For the millions of patients who depend on their compounded hormones to live normally, it is a potential health crisis. For many providers and pharmacists this issue will determine the future of their practices.

THE FIGHT IS NOT OVER. WE NEED YOUR SUPPORT, YOUR VOICE, YOUR ACTIONS MORE THAN EVER.

Alliance for
Pharmacy
Compounding

“

So far, the FDA has been distracted by a number of critical issues. I expect they will return to the issue of compounded hormones soon. We certainly aren't out of the woods.

DAVID PORE

PARTNER, HANCE SCARBOROUGH, LLP
APC GOVERNMENT AFFAIRS COUNSEL

YEAR ONE: 2021

In the first year of our campaign, we successfully:

- Reached 25,000,000 patients, prescribers and physicians
- Engaged with more than 300,000 stakeholders
- Developed and launched [compounding.com](https://www.compounding.com)
- Filmed and launched multiple testimonial videos
- Produced our Compounding the Joy of Living video
- Produced a version of Compounding the Joy of Living for our pharmacists to use in their local markets
- Created in-store marketing materials for our pharmacists
- Funded a 3rd-party review of the NASEM report
- Published articles in STAT News and Everyday Health
- Produced multiple letters to Congress
- Featured in more than 100 podcast episodes

YEAR TWO: 2022

Standing up to FDA overreach

When we consider the future of compounding, 2022 may well prove a decisive point. And the fight over compounded hormones may prove to be the decisive issue. We must engage with patients, with practitioners, with relevant media and with Congress.

We must continue to make our voices heard and help people understand exactly what's at stake. Most importantly, we need to inspire everyone affected by this issue to take action.

OUR 2022 GOAL:

Raise +\$850,000

In 2022, the money we raise will fund:

- Extensive advertising to all stakeholders of compounded hormones
- Focused effort to engage practitioners
- Developing and expanding [compounding.com](https://www.compounding.com)
- Unique media opportunities
- Added focus on patient testimonials

“

I strongly urge every pharmacist involved in compounding, who believes in compounding, who is helping patients — become a member of APC. I urge you to get involved. I ask every owner of 503A and 503B pharmacies to support the Alliance financially as much as you can possibly contribute. There has never been a greater time to educate both Congress and government regulators about the GOOD being done on a daily basis by our pharmacists for our patients.

ROBERT NICKELL

PHARMACIST

CEO NUBRATORI RX (503B)
