Per the email sent on April 8, 2026, from Scott Brunner to the APC Board of Directors:

APC board members:

This one requires a quick response. The bill in question is about expanding prescriptive authority for NDs in California. As Tenille indicates below, they have been staunch supporters of our efforts to reign in the California board of pharmacy and to amend the recently enacted California pharmacy regulations. While we generally don't have a position on ND prescriptive authority, I think we need to draft a letter in support of this bill. I think the downside risk of such a letter is small, and supporting them as a reasonable response to their ongoing support for our legislation. At the same time, I do not think we should agree to actually testify in favor of the bill. Please respond and state whether you are OK with us drafting a letter in support of this ND legislation.

All APC Board of Directors agreed to support this legislation on April 13, 2026.
