USP 800 & OSHA

- Fit test the respirator and train workers to use respiratory protection. Follow all requirements in the Occupational Safety and Health Administration (OSHA) respiratory protection standard (29 CFR 1910.134).
- Goggles must be used when eye protection is needed. Eye glasses alone or safety glasses with side shields do not protect the eyes adequately from splashes.
- Personnel who transport, compound, or administer HDs must document their training according to OSHA standards (see OSHA Standard 1910.120 Hazardous Waste Operations and Emergency Response) and other applicable laws and regulations.
- Medical records of surveillance should be maintained according to OSHA regulation concerning access to employee exposure and medical records
- 8. HAZARD COMMUNICATION PROGRAM
