1

? How many of you currently use AI?

Made with Gamma

2

# How many of you currently use AI Outside of ChatGPT, Voice Assistants, or Image Generation?

## ChatGPT

The most popular AI tool right now, used for writing, translation, and summarizing information.

## AI-powered assistants

Like Siri, Alexa, and Google Assistant, these tools can help you with tasks, make calls, and get directions.

## AI-powered image generators

Tools like Dall-E and Midjourney can generate stunning images from text prompts.

## AI Simplifies Email Organization and Response

**SaneBox**

**Automated Inbox Management**

AI-powered email services, like SaneBox or Boomerang, can help keep inbox organized! They automatically filter, classify, and prioritize emails so you can move smoothly through your day without getting caught in a storm of unimportant messages.

*\$36/month*

**OpenAI's New ChatGPT**

**Automated Message Replies**

Let AI be your own personal assistant with chatbots, by automatically responding to frequently asked questions and providing status updates. With their help, you can navigate through customer service obstacles with ease and keep all your current customers happy!

Made with Gamma

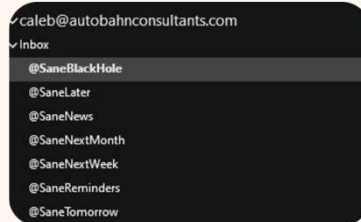

6

## SaneLater

### Minimized Distractions

Focus on essential messages and avoid interruptions.

### Organized Inbox

Keeps your inbox tidy by moving less urgent emails to a later time.

### Time-Saving

Effortlessly manage your email, saving you valuable time.

Made with Gamma

7

## Snoozing Emails with SaneBox

Snoozing Emails with SaneBox is a convenient feature that allows you to temporarily hide certain emails from your inbox.

### Benefits of Snoozing

This helps you prioritize and focus on the emails that require immediate attention, while giving you the flexibility to deal with other messages at a more convenient time.

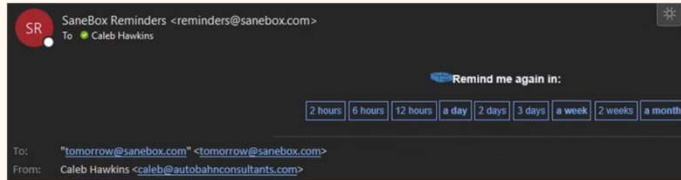

### Manage Your Inbox

With the snooze feature, you can effectively manage your emails and avoid feeling overwhelmed by a cluttered inbox.

8

# SaneReminders

## Never Miss Deadlines

SaneReminders ensures timely reminders for emails and commitments.

## Improved Communication

Get nudges for unanswered emails, improving communication efficiency.

## Centralized Reminder Management

Manage tasks, deadlines, and personal reminders in one place.

## Automated Email Reminders

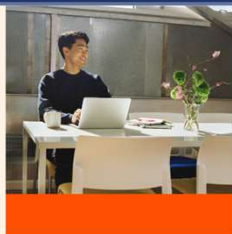

By adding a time-based email address (e.g., [tomorrow@sanebox.com](mailto:tomorrow@sanebox.com) or [3days@sanebox.com](mailto:3days@sanebox.com)) to the BCC or CC field, SaneBox will remind you if you haven't received a reply by the specified time.

# The Leader of the AI Boom: ChatGPT

ChatGPT started as a basic AI chatbot, but it has evolved into a versatile tool that allows you to create custom GPTs, analyze spreadsheets, interpret images, and access a wealth of information in entirely new ways.

*Plus Plan \$20/month*

*Pro Plan \$200/month*

Made with Gamma

11

## Create a Custom Chat GPT

Custom GPTs offer specialized, tailored AI solutions for precise control, giving you the ability to fine-tune AI capabilities to fit your exact needs.

- 1 Define purpose:  
Specify your GPT's tasks.
- 2 Gather data:  
Collect training data (text, code, etc.).
- 3 Choose tools:  
Select a platform (e.g., OpenAI API).
- 4 Fine-tune and test:  
Train, evaluate, and refine.

*\$449/month*

## ChatGPT and Information from Photo

Analyze this image

ⓘ This image depicts a serene landscape with the following features:

- Mountains:** Prominent snow-covered peaks dominate the background, reflecting a majestic and peaceful setting.
- Lake:** A calm body of water in the foreground mirrors the surroundings, adding symmetry and depth to the scene.
- Forested Area:** The lake is framed by lush green trees and bushes on both sides, providing a vibrant contrast against the snow and water.
- Seasonal Touch:** Hints of red and orange foliage suggest an autumn or late summer setting.
- Sky:** A bright, clear blue sky with scattered fluffy white clouds enhances the overall tranquil and inviting atmosphere.

The painting emphasizes natural beauty, tranquility, and harmony, with realistic details and a balanced composition. Let me know if you'd like a deeper analysis or specific insights!

### Descriptions

ChatGPT can describe what it sees in an image, like objects, scenes, or text.

### Problem-Solving

It helps solve image-related tasks, such as reading handwritten notes or analyzing charts.

### Creative Uses

Use images as prompts for generating text or discussing visual content (e.g., design critique).

### Accessibility

Image descriptions make content accessible to visually impaired users.

13

## ChatGPT Spreadsheet Analysis

- **Excel Formula Generator**  
Effortlessly create complex formulas (nested IFs, array formulas, INDEX+MATCH).
- **AI-Powered Data Analysis**  
Automate data cleaning, remove duplicates, handle large datasets efficiently.
- **Dynamic Data Summaries**  
Use AI for dynamic data summaries with slicers, filters, and interactive dashboards.

Made with Gamma

14

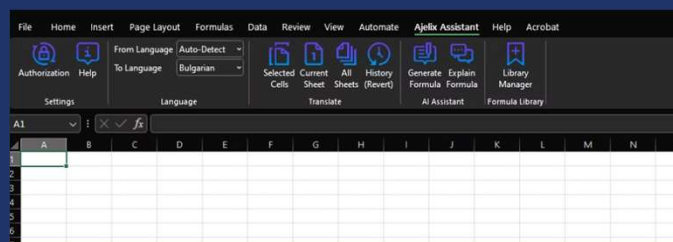

# Using AI with Spreadsheets

AI improves spreadsheet work by automating tasks, suggesting formulas, cleaning data, detecting errors, visualizing data, predicting trends, aiding collaboration, personalizing suggestions, and optimizing processes. It enhances efficiency, reduces errors, offers insights, and enables better decision-making.
